

## Greenhouse Newsletter

February 2020

### Dates to Remember:

Feb 17: Greenhouse opens for the season

March 3: Greenhouse Stewards Meeting @ 3 pm in NHS Library

### Important Updates:

#### *Classroom Seeds*

For the classes planting this spring, **we have received your seeds!** You will receive an individual email in the next few days regarding specific planting information. We ordered enough seeds for *all* students in each grade level - so if you are a teacher who wasn't able to fill out the survey but would still like to plant, you are more than welcome!

#### *Greenhouse Google Drive*

We have created and shared a "NHS Greenhouse" folder with you. Included in this drive are helpful planting information and links to additional resources, such as starting your seeds in trays or in the ground. Our goal for this drive is to create a central location for greenhouse resources that are easily accessible to everyone.

#### *NHS Greenhouse Calendar*

A Google calendar has been created for the GH that includes best times to plant and/or transplant your seeds and other GH events. You can click on each event for a short description. Please let us know if/when you decide to plant so that we can add that information to the calendar too!

The calendar can be accessed here: [NHS Greenhouse Calendar Link](#)

#### *Opening the Greenhouse*

While we currently do not have running water, we do have rain barrels and access to water from Facilities. The heat is expected to be on before February break. After this date, the greenhouse will be fully accessible during school hours. You are welcome to store your seeds there over February vacation.

#### *Planting Logistics*

For those that are **sowing seeds indoors**, we will gather all the supplies needed and place them in a central location in the greenhouse. Please touch base with us for when you'd like to plant so we can have the materials ready.

For those that are **sowing outdoors**, we will be sending along a map shortly of which beds to use in the garden. We are also in the process of ordering new gloves and tools that you can use as well. Please touch base with us when you sow so that we can make sure the site is looked after.

**Please do not hesitate to reach out with any questions!**

**Thank you and have a great February!**
